CHORE-TIME AQUA TUBE[®] FEEDERS

DESIGNED FOR ADJUSTABLE FEEDING
OPTIONS

- › Keeps feed fresh and reduces waste
- › Easy to install and operate
- › Low maintenance and easy to clean

AQUA TUBE® FEEDERS

Chore-Time AQUA TUBE® Feeders provide the benefits of tube feeding at “dry feeder” prices for nursery and wean-finish pigs. These double-sided combination feeders are easy to install and operate, and require less maintenance.

Keeps feed fresh and reduces waste

- › Pigs get fresh feed several times each day.
- › Eliminates guesswork by offering convenient and precise top adjustment using clearly marked feed settings.
- › Feed-saving lip profile on feed trough helps prevent feed waste.
- › Allows pigs to move easily from feed to water at the same station without side restrictions or barriers.
- › Optional 100-pound (45-kg) capacity plastic feed hoppers handle a full range of feeds, from finely ground to pelleted feeds.

Easy to install and operate

- › Ideal for center-pen or fence-line feeding configurations.
- › Easy installation.
- › One of the easiest-to-clean tube feeders available.

Low maintenance and easy to clean

- › Advanced trough design helps to reduce clogging due to moisture and keeps feed contained.
- › PVC feed tube with feed agitation spinner reduces feed dust to help save hours of cleaning time.
- › Self-cleaning recessed water cup with nipple drinkers keeps water fresher and increases water accessibility while minimizing water waste.
- › Top quality welded 304 Series stainless steel construction provides a durable fence, trough and drinking system.
