## TURN-AROUND SOW FARROWING CRATES

- › More weaned piglets with a higher weaning weight
- › Solutions for animal space requirements
- › Proven design backed by years of experience

# FARROWING CRATES

PigTek's Turn-Around Farrowing Crates are for sow producers who want to take their sow management to a higher level while also using compliant solutions for the changing rules for animal space requirements. This housing for sows is based on PigTek's years of European pig production experience. The products are engineered to offer producers practical retrofit or new construction solutions for today's pig production challenges.

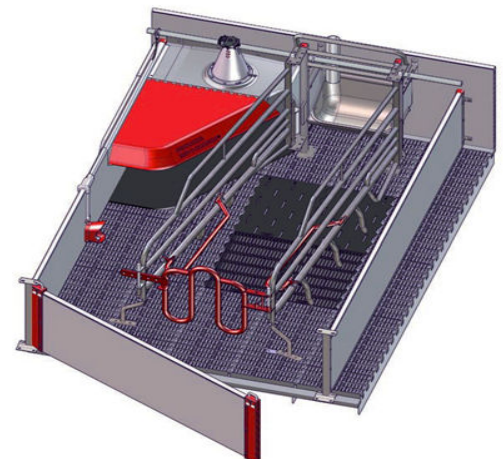

## What You Need to Know

- › Turn-around style farrowing crates are animal-friendly, help to reduce stress for sows and baby pigs, and offer solutions for changing animal space requirements.
- › The design of this farrowing crate makes it easy for sows to enter and leave for safe farrowing and movement behavior.
- › PigTek's farrowing crate was engineered to provide baby pigs with more space as well as easy access to the sow for nursing.
- › Crate design makes it easy for employees to reach and care for sows.
- › PigTek's crate configurations enable the sow to easily get up while also providing a high degree of protection to the piglets when the sow lies down.
- › Optional creep box is large enough to contain all littermates while helping to keep piglets safe and warm for a resulting higher average daily weight gain.
- › Design is backed by years of experience in European pig production.

## Product Features

- › System can be used for conventional or diagonal crate configurations.
- › Multi-adjustable farrowing crate is adaptable to the anatomy of the sow and is modifiable according to the size of the sow.
- › Specially-shaped finger bars at the side of the crate help to protect and preserve baby pigs while providing easy access to the sow's udder.
- › Crates are available in galvanized or stainless steel for durability and low maintenance.
- › Smooth, easy-to-clean surfaces and rounded corners minimize the risk of accumulating dirt.
- › Optional integrated sow drop feeding system is available.
- › Feed trough is made of easy-to-clean stainless steel.
- › Durable, thoroughly-tested and functional for both sows and staff.

Hinged Farrowing Crates for Sows with Optional Creep Box for Piglets
